

THREE WAY ROD HOLDER

This product has been designed in such a way that you are able to store your rods using three methods.

The Rod Holder comes in two parts, the base and the key. Both the base and the key have a mounting attachment, and screws and wall plugs are provided for installation.

The racks are manufactured out of MDF – Superwood. This wood is hard, strong and durable. The racks are dipped stained and sealed. The racks are 600mm long and are designed to hold five rods.
